EDGEWATER GRAY - 202

WHITE - 311

## EPOXY-BASED / EP EPOXY

EP Epoxy provides great protection for concrete, plaster and fiberglass. Cured to a hard, tough finish, this epoxy coating provides stain, chemical, and abrasion resistance with excellent coverage rates, especially on previously painted epoxy surfaces. EP Epoxy has been a proven performer for more than 50 years. VOC compliant in US and Canada.

AQUAGREEN - 300

DAWN BLUE - 328

MONUMENT GRAY - 362

WHITE - 311

## ACRYLIC-BASED / DS

DS offers advantages over traditional solvent-based paints, as it can be applied to damp surfaces as well as previously painted chlorinated and synthetic rubber surfaces. DS is ideal when short down times are critical allowing the pool to be refilled within 3 days after the final coat. Extremely color-fast and UV resistant. VOC compliant in US and Canada.

AQUAGREEN - 300

DAWN BLUE - 328

WHITE - 311

## RUBBER-BASED / TYPE A

Used in the industry for decades to restore and protect plaster and concrete pool surfaces, Type A is an excellent choice for recoating previously painted chlorinated rubber surfaces. Formulated to provide excellent hiding and superior coverage rates compared to other chlorinated rubber paints. Type A has been the paint choice of swimming pool professionals for more than 70 years.

## RUBBER-BASED / A-2

This premium synthetic rubber coating is formulated to provide excellent hiding, coverage, and protection. It restores and upgrades previously painted chlorinated rubber and synthetic rubber surfaces. A-2 offers a superior coverage rate compared to other rubber based paints. VOC compliant in US and Canada.

## RUBBER-BASED / PRO 2000

Ramuc Pro 2000 Chlorinated Rubber Aquatic Paint has been designed for commercial use where a competitively priced paint is required and pool maintenance is performed every few years. This product is an excellent choice for recoating previously painted chlorinated rubber surfaces.

## RUBBER-BASED / ULTRA PRO 2000

This synthetic rubber coating is designed for commercial use where a competitively priced paint is required and pool maintenance is performed every few years. An excellent choice for recoating previously painted chlorinated rubber and synthetic rubber surfaces. VOC compliant in Canada and US (except California).
